

EXTENDA
LIFE

BROOKS Manufacturing Co.

EXTENDA-LIFE CROSSARMS

Extenda-Life Crossarms are the same superior quality crossarms that Brooks has produced for decades, with the addition of a specially designed nail end plate hydraulically pressed into each end.

- Engineered to eliminate end split
- Extends the life of the crossarm
- More than a 50% increase in strength for longitudinal and transverse loading
- Factory installed
- Patented, ANSI approved, RUS accepted

Engineered to outlive you.

Will your system outlive you?

Our patented endplate system was specifically designed to maximize the usable life of Douglas fir crossarms by preventing end split. Extenda-Life™ Crossarms will significantly increase the life cycle of any distribution line.
