

**EXTENDA**  
SHIELD

# BROOKS Manufacturing Co.

## EXTENDA-SHIELD PRODUCTS

**Extenda-Shield** is an ultra-strong protective coating from the Brooks' line of Extenda products. The product successfully extends the life of many materials, including wood crossarms. The easy-to-use formula quickly coats the surface making the crossarm virtually impenetrable!

### Incredible Strength & Protection

- Shields against weather deterioration
- Guards against wood pecker damage
- Fire retardant
- Reduces contamination build-up
- Dielectric Testing has proven better insulating characteristics than uncoated wood

**Save time and money on repair and replacement by using Extenda-Shield!**

**BROOKS**  
MANUFACTURING CO.

**2120 Pacific St • Bellingham, WA 98229**
